Introduction

At General Assembly, we pride ourselves on being the most affordable, accessible, and high-return pathway to a career in tech for anyone who is committed to making the transition.

More than half of all GA students take advantage of financial assistance. We've helped 110,000+ students meaningfully invest in their careers through targeted, industry-aligned education and believe that expanding access to our courses will lead to more diverse classrooms—and a more diverse workforce. Plus, removing financial barriers isn't just a social impact goal, it's core to GA's brand mission. We stand behind our education and student outcomes. When you're successful, we're successful.

We know that investing in your education can be a big decision. We also know that there's no one-size-fits-all solution to financing. That's why we've crafted an array of options to match every student goal, starting point, and financial situation—from deferred payments to zero-interest loans.

In addition to payment plans and private loans, we also have specific courses for underrepresented communities and veterans and can help you to secure funding through your employer. All of our financing options are vetted, high-quality, and created explicitly for GA students that meet the qualifications. We work directly with partners to ensure student-friendly terms and seamless customer service.

As we invest more in our global growth, new learning products, comprehensive supportive services for our students, and best-in-class instructors, we've also officially made the difficult decision to reduce our physical campus footprint and not reopen our spaces in many of our US markets—however our New York campus will remain open. At several points throughout the pandemic we thought that we would eventually see a “return to normal”—but it's clear that the ways that we live, work, and learn are forever altered. We live in a changed world, and General Assembly is changing with it.

How to use this handbook

We want our learners to be able to focus on class, not costs.

We understand that different people have varying priorities and circumstances, which makes some financing options more suitable than others. It's our hope that the breadth of financing options we offer for those that qualify will promote access to our life-changing courses and meet the needs of the majority of prospective students.

Your choices will depend on your own unique situation and needs. Ask yourself:

- What will my budget be for my time during the course? Will I have the resources to support myself (and others) financially?
- What will my debt-to-income ratio look like? How will my monthly payments fit into this?
- Is it more important to have smaller monthly payments or to pay my balance off faster?

We've compiled this handbook to help you find the answers.

Financing options for our programs have been broken out between our bootcamp and short course programs. Each state has specific rules and regulations that may not be represented here. Refer to our formal [Course Catalog](#) for full details.

While this handbook can serve as a jumping-off point for considering how to finance your GA education, it should not replace the guidance of a financial planner. We recommend discussing these options with a trusted advisor before making any decisions.

If you have any questions about General Assembly or the contents of this handbook, our Admissions team is here to help. Drop us a note at admissions@generalassembly.ly.

See you in class,

Cristina Rodriguez (she/her)
Director, Consumer Finance
General Assembly

Payment plans

What are payment plans?

Payment plans allow students at GA to spread out their tuition cost over a limited number of installments while they are actively attending class. These plans are a form of self-payment and don't have any associated fees or interest when paid off prior to the end of the course.

All students make an upfront payment within 24 hours of enrollment, covering the registration fee. They can then split their tuition into two, three, or four installments due prior to the date of completion.

The application process

1. Apply and gain acceptance to your bootcamp of choice.
2. Let your Admissions Specialist know about your payment plan of interest.
3. Your Admissions Specialist will process your enrollment.
4. Keep an eye out for an invoice for your initial upfront payment that's due within 24 hours.

PAYMENT PLAN OPTIONS		
1/2 Payment Option	1/3 Payment Option	1/4 Payment Option
\$100 registration fee due upfront	\$100 registration fee due upfront	\$100 registration fee and first installment of tuition due upfront.
First installment due seven days before the course starts.	First installment due seven days before the course starts.	Second installment due seven days after the course starts.
Second half due one month after that.	Second installment due one month after that.	Third installment due three weeks after that.
N/A	Third installment due one month after that.	Fourth installment due three weeks after that.

The fine print

Timing of payments will vary based on the place of residency and the date of the previous invoice. For example, for students based in Washington, D.C., the first payment is due seven days after the course start date instead of seven days before. Enrolling after the initial installment due date will require full payment at the time of enrollment. Be sure to consult our [Course Catalog](#) for full details.

When taking on a payment plan, we recommend budgeting for both a three-month course at GA and an additional three-month window for job searching.

If a student holds an outstanding balance after the course's end date, a one-time \$75 late fee will be applied and a 1.5% interest charge on the total due will be accrued each month thereafter. Students will also incur a \$25 fee for declined transactions or returned checks.

The bottom line

Payment plans are a good option if you want to pay tuition back quickly to avoid additional interest or fees. They are best suited to students who have the funds available to pay for living expenses, including rent and groceries.

Private loans

What are private loans?

Private loans send money directly to GA on a student's behalf, which you'll pay back with interest over a specified period of time. In the United States, loans for all bootcamp programs are available via our partners at [Climb](#). Apply for as low as \$1,000 up to the full cost of tuition and up to \$7,000 in living expenses.

The application process

1. Apply and gain acceptance to your bootcamp of choice.
2. Complete a loan application directly via the partner's site.
3. Select the repayment plan that works best for you.
4. Upon approval of the loan, your Admissions Specialist will enroll you in the program.

On average, this entire process takes one to two days to complete.

AT A GLANCE			
Lender	Cost of Living Financing	Loan Term	Interest Rate
Climb	✓	3–10 years	6.5–15%

The fine print

Students can be pre-approved for a loan without impacting their credit score, as partners use a soft pull as part of their decision-making process. We recommend that students review their credit report prior to applying to see where they stand, make sure there are no inaccuracies, and determine if they should consider finding a co-borrower.

Climb offers loans to students with US citizenship or permanent residency. However, a foreign student can apply for the loan as long as they have a co-borrower who is a US citizen or permanent resident.

There is no penalty for early repayment.

Loan terms displayed are effective as of 1/31/2025. To see full repayment examples, visit [Climb](#).

Students are responsible for paying any registration fees or other upfront costs directly to the institution, as the loans cover only tuition.

The bottom line

Private loans are a good option for people who want to pay for their course with smaller monthly installments rather than larger payments or all upfront. Because loans come with an interest rate, you'll ultimately pay more than the tuition amount. Private loans are best for students who want to know the amount they'll pay each month or who need funds throughout the duration of the course.

24-month 0% interest pathway payments

What are 24-month payment plans?

These extended payment plans allow students at GA to spread out their tuition costs.

The application process

This 24-month payment plan is available through [Climb Credit](#).

1. Apply and gain acceptance to your bootcamp of choice.
2. Complete a loan application with Climb.
3. Select the 0% interest rate option as your preferred financing option.
4. Your Admissions Specialist will formally enroll you in the program and send an invoice for your initial upfront payment, due within 24 hours.

AT A GLANCE			
24	0	0%	Upfront Cost
-month repayment period	fees	interest	\$100 registration fee

The fine print

This payment plan is only available to students who have been accepted to a General Assembly program. All students pay an upfront payment to General Assembly within 24 hours of enrollment, which covers the registration fee. The remaining balance is paid via 24 monthly installments made via the Climb platform on the first of each month following your first day of class.

This payment plan does not include funding for cost of living or program materials, only the tuition of a bootcamp program. Students can be pre-approved for a loan without impacting their credit score, as partners use a soft pull as part of their decision-making process. We recommend that students review their credit report prior to applying to see where they stand, make sure there are no inaccuracies, and determine if they should consider finding a co-borrower.

There is no penalty for early repayment.

The bottom line

A 24-month payment plan removes upfront barriers that too often prevent people from pursuing education and training. This payment option is great for students who want to pay a low overall cost but may not want or need a 3+ year loan.

36-month 0% interest fully deferred grace plan

What are 36-month payment plans?

These extended payment plans allow students at GA to spread out their tuition costs and defer tuition payments for one year from their program's start date.

The application process

This 24-month payment plan is available through [Climb Credit](#).

1. Apply and gain acceptance to your bootcamp of choice.
2. Complete a loan application with Climb.
3. Select the 0% Fully Deferred Grace FDG option as your preferred financing option.
4. Your Admissions Specialist will formally enroll you in the program and send an invoice for your initial upfront payment, due within 24 hours.

AT A GLANCE			
36	0	0%	Upfront Cost
-month repayment period	fees	interest	\$100 registration fee and \$400 tuition deposit

The fine print

This payment plan is only available to students who have been accepted to a General Assembly program. All students pay a \$100 registration fee and \$400 tuition deposit to General Assembly within 24 hours of enrollment. No additional payments are due for the first 12 months after your loan is funded, after which your loan amount will be split into 36 payments, payable via the Climb platform. Students can be pre-approved for a loan without impacting their credit score, as partners use a soft pull as part of their decision-making process. We recommend that students review their credit report prior to applying to see where they stand, make sure there are no inaccuracies, and determine if they should consider finding a co-borrower.

This payment plan does not include funding for cost of living or program materials, only the tuition of a bootcamp program. There is no penalty for early repayment.

The 36-month 0% interest fully deferred grace plan is not available for the Information Technology Bootcamp.

The bottom line

A 36-month payment plan removes upfront barriers that too often prevent people from pursuing education and training. This payment option is great for students who want to pay a low overall cost but may want or need to defer their payments for an extended period of time.

Payment plans

What are payment plans?

Payment plans allow students at GA to spread out their tuition cost over a limited number of installments while they are actively attending class. These plans are a form of self-payment and don't have any associated fees or interest.

All students make an upfront payment within 24 hours of enrollment, covering the registration fee. They can then split their tuition into two, three, or four installments.

The application process

1. Apply and gain acceptance to your course of choice.
2. Let your Admissions Specialist know about your payment plan of interest.
3. Your Admissions Specialist will process your enrollment.
4. Keep an eye out for an invoice for your initial upfront payment that's due within 24 hours.

PAYMENT PLAN OPTIONS*		
1/2 Payment Option	1/3 Payment Option	1/4 Payment Option
\$100 registration fee due upfront.	\$100 registration fee due upfront.	\$100 registration fee and first installment of tuition due upfront
First installment due seven days before the course starts.	First installment due seven days before the course starts.	Second installment due seven days after the course starts.
Second half due one month after that.	Second installment due one month after that.	Third installment due three weeks after that.
N/A	Third installment due one month after that.	Fourth installment due three weeks after that.

*One-week courses are not eligible for payment plans.

The fine print

Timing of payments will vary based on the place of residency and the date of the previous invoice. For example, for students based in Washington, D.C., the first payment is due seven days after the course start date instead of seven days before. Enrolling after the initial installment due date will require full payment at the time of enrollment. Be sure to consult our [Course Catalog](#) for full details.

If a student holds an outstanding balance after the course's end date, a one-time \$75 late fee will be applied and a 1.5% interest charge on the total due will be accrued each month thereafter. Students will also incur a \$25 fee for declined transactions or returned checks.

The bottom line

Payment plans are a good option if you want to pay tuition back quickly to avoid additional interest or fees.

9-month 0% interest payments

What are 9-month payment plans?

These extended payment plans allow students at GA to spread out their tuition costs.

The application process

This 9-month payment plan is available through [Climb Credit](#).

1. Apply and gain acceptance to your short course of choice.
2. Complete a loan application with Climb.
3. Select the 0% interest rate option as your preferred financing option.
4. Your Admissions Specialist will formally enroll you in the course and send an invoice for your initial upfront payment, due within 24 hours.

AT A GLANCE			
9	0	0%	Upfront Cost
-month repayment period	fees	interest	\$100 registration fee

The fine print

This payment plan is only available to students who have been accepted to a General Assembly course. All students pay an upfront payment to General Assembly within 24 hours of enrollment, which covers the registration fee. The remaining balance is paid via nine monthly installments made via the Climb platform on the first of each month following your first day of class.

This payment plan does not include funding for cost of living or course materials, only the cost of the short course. Students can be pre-approved for a loan without impacting their credit score, as partners use a soft pull as part of their decision-making process. We recommend that students review their credit report prior to applying to see where they stand, make sure there are no inaccuracies, and determine if they should consider finding a co-borrower.

There is no penalty for early repayment.

The bottom line

A 9-month payment plan removes upfront barriers that too often prevent people from pursuing education and training. This payment option is great for students who want to pay a low overall cost but may not want or need a 2+ year loan.

18-month 0% interest payments - bundle plan

What is the bundle loan payment plan?

This extended payment plan allows students at GA to spread out their tuition costs when signing up for multiple eligible courses that qualify for a bundle discount.

The application process

This 18-month payment plan is available through [Climb Credit](#).

AT A GLANCE			
18	0	0%	Upfront Cost
-month repayment period	fees	interest	\$200 in registration fees

1. Apply to General Assembly and complete the bundle planning and enrollment process for your short courses.
2. Complete a loan application with Climb.
3. Select the 0% interest rate option as your preferred financing option.
4. Your Admissions Specialist will formally enroll you in the course and send an invoice for your initial upfront payment, due within 24 hours.

The fine print

This payment plan is only available to students who have been accepted to General Assembly. Students must have qualified and received the Bundle Discount by enrolling in multiple eligible courses. All students pay an upfront payment to General Assembly within 24 hours of enrollment for each qualifying course and individual course, which covers the registration fee. The remaining balance is paid for by 18-monthly installments made via the Climb platform on the first of each month following your first day of class.

This payment plan does not include funding for cost of living or course materials, only the cost of the short course(s). Students can be pre-approved for a loan without impacting their credit score, as partners use a soft pull as part of their decision-making process. We recommend that students review their credit report prior to applying to see where they stand, make sure there are no inaccuracies, and determine if they should consider finding a co-borrower.

There is no penalty for early repayment.

The bottom line

An 18-month repayment plan removes upfront barriers that too often prevent people from pursuing education and training. This payment option is great for students who select bundle pricing and want to ensure they will be approved for both courses up front, but won't be billed for the second course until they actually enroll in it.

Loans

What are private loans?

Private loans send money directly to GA on a student's behalf, which you'll pay back with interest over a specified period of time. In the United States, loans for short courses are available via our partners at [Climb](#).

The application process

1. Apply and gain acceptance to your course of choice.
2. Complete a loan application directly via the partner's site.
3. Upon approval of the loan, your Admissions Specialist will enroll you in the course.

AT A GLANCE			
Lender	Cost of Living Financing	Loan Term	Interest Rate
Climb	✓	2–10 years	6.5–15%

On average, this entire process takes one to two days to complete.

The fine print

Students can be pre-approved for a loan without impacting their credit score, as partners use a soft pull as part of their decision-making process. We recommend that students review their credit report prior to applying to see where they stand, make sure there are no inaccuracies, and determine if they should consider finding a co-borrower.

Climb also offers a 9-month 0%-interest loan to split the payments of a short course up—the only additional cost is an origination fee.

All of our partners offer loans to students with US citizenship or permanent residency. However, a foreign student can apply for the loan as long as they have a co-borrower who is a US citizen or permanent resident.

There is no penalty for early repayment.

Loan terms displayed are effective as of 1/1/2026.

Students are responsible for paying any registration fees or other upfront costs directly to the institution, as the loans cover only tuition.

The bottom line

Private loans are a good option for people who want to pay for their course with smaller monthly installments rather than larger payments or all upfront. Because loans come with an interest rate, you'll ultimately pay more with the loan partner of your choice than the tuition amount. Private loans are best for students who want to know the amount they'll pay each month.

Employer sponsorship

What is employer sponsorship?

Some companies have a dedicated budget for employee development and education. Tuition can either be paid upfront directly by the employer or reimbursed to the employee after they successfully complete the course.

More than half of General Assembly's employed short course students receive tuition reimbursement from their workplace. How? They simply ask. Speak with your manager about your goals and how new skills will help you achieve them.

Whether or not your workplace offers an official professional development program, there are several paths to receiving full or partial employer sponsorship:

The application process

1. Apply and gain acceptance to your course of choice.
2. Let your Admissions Specialist know that you're interested in employer sponsorship.
3. Your specialist will secure your enrollment and set up an invoice based on your company's payment process.

PATHS TO EMPLOYER SPONSORSHIP		
Speak With HR	Speak With Your Manager	Speak With Admissions
Ask if your company has an employee education budget.	Start a conversation with help from this handy website .	Ask questions and get help with the application process.

Upon approval from your employer, we encourage you to either:

- Pay for your course and get reimbursed directly. You can choose to either pay in full upfront or sign up for one of our payment plans, which break your tuition into installments.
- Pay for your course using a corporate credit card.
- Talk to your Admissions Specialist about third-party sponsorship.

The fine print

Some companies only fund accredited courses and, while we strive to provide a top-notch educational experience, General Assembly is not accredited by a US Department of Education-recognized body. We are a licensed school in every US state in which we operate.

The bottom line

Our team can provide course syllabi for your HR department or manager to review. In many cases, employers have offered tuition assistance upon reviewing our curriculum in depth. We are also available to speak to representatives at your company if they prefer to discuss the course with someone at GA.

Government financing

What are government subsidies?

In certain US states, General Assembly is an Eligible Training Provider for candidates to access government tuition vouchers toward their career-related education. Funding sources differ, but the process to obtain Individual Training Grants (ITGs) is the same through the Workforce Innovation and Opportunity Act (WIOA), Vocational Rehabilitation Departments, and other workforce-related agencies.

Take a look at the [Workforce Development/Social Impact page](#) on our website for the most up-to-date list of approved states.

The application process

1. Contact your local [CareerOneStop Center](#) and speak with a case manager or counselor to see if you might qualify for funding.
2. Let your Admissions Specialist know that you are interested in learning more about government funding opportunities.
3. Your Admissions Specialist will work with you and your local CareerOneStop Center to secure your funding and enrollment.

We recommend that you continue through the admissions process while you work to secure government subsidies as this process can take a few weeks to complete.

The fine print

The actual amount of each ITG offered is determined by your local CareerOneStop. Grants usually range between \$2k-\$10k, depending on the course. GA cannot guarantee benefits eligibility. Common requirements to access this funding may include, but are not limited to:

- Residency in an [eligible state](#)
- You are currently un/underemployed
- You identify with a demographic group that may qualify you for additional benefits

The bottom line

Government subsidies are a good option for people who are unemployed or underemployed, reside in an [eligible state](#), and require financial assistance to pursue their GA course.

Students with further questions can email us at workforce@ga.co.
